

Custom Control Cabinets and Cable Assemblies

Our mission statement

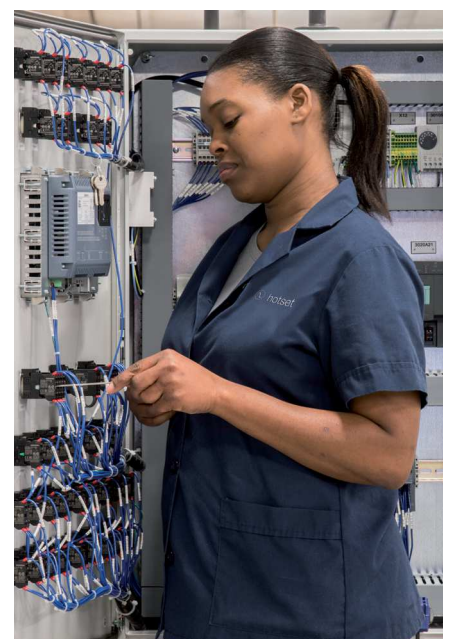

“To provide the most effective solutions, products and services, exceeding our customer expectations through continuous improvement in quality, delivery and price.”

Hotset expects and demands integrity, teamwork, innovation and commitment to be our guiding principles. This is demonstrated on a daily basis, from our interactions with our customers to the interactions with our suppliers and team members. We

strive for excellence, from the time a quotation is received until the product arrives at our customer's facility. Our goal is to be your first choice as a partner in your control cabinet and cable needs.

Our advantage at Hotset is our employees, their dedication to produce quality control cabinets,

cables and wire harnesses within the time frame that our customers require.

Hotset has over 165 years of combined experience producing control cabinets and cables. We employ time proven manufacturing systems, a quality approach based on preparation not reaction and a pricing model that supplies the customer an exceptional product at a very competitive price. We have produced hundreds of cabinets for varied applications and industries. We look forward to assisting you with your next project, whether your requirement is several custom control cabinets, cables, or production runs.

Siemens Synergy Building Partner

Hotset has achieved the honor of being a Siemens Synergy Builder Partner. What does that mean for our customers? Hotset receives Siemens 24x7 Priority Support, CA01 Full Service Tool for project uploads, education and training through Siemens and assistance in project development.
